Instant, endless hot water, wherever you are! The Eccotemp CE L5 is an ideal unit for portable, point of use hot water applications. This lightweight liquid propane fired water heater is perfect for camping, concession trailers, lake cottages, industrial applications, washing pets and horses, or simply around the house. Use it outside the caravan or at the marina for the boat.

The Eccotemp CE L5 will deliver up to 5 liters of hot water per minute. Using 2 D cell batteries for ignition, it requires no electricity. Design for portability and versatility, it has standard BSP water fittings so can easily be used with any standard British water fittings. Requires 1.3-5.5 bar (20-80 PSI) of water pressure.

Instant, endless hot water, wherever you are! The Eccotemp CE L10 is the big brother version to the popular CE L5. The CE L10 is designed for a customer that needs more output for holiday cabins, lake houses, barns, potting sheds, and caravans. It is a great for washing horses and around the farm. Using liquid propane for fuel, it has a 2 D cell battery ignition so there is nothing to hardware in.

The CE L10 will deliver up to 10 liters of hot water per minute - plenty to run two water appliances at the same time. Designed for a more permanent outdoor installation, it has standard BSP fittings which makes plumbing easy with readily available standard fittings.

Package Contents:

- ✓ 16KW 10 liter tankless water heater
- ✓ CE propane regulator and hose
- ✓ Quick disconnect adapters
- ✓ Instruction Manual
- ✓ Installation hardware

Food is one of the great things about camping and when you're camping with the Eccotemp CSET-100 Portable Camping Stove & Oven you can prepare delicious homemade meals without leaving the campsite. This oven unlocks all the cooking capabilities of a home oven and range. Designed to be both portable and versatile, the Camping Stove & Oven will provide you with the heat necessary to cook anything from a breakfast skillet to your favorite baked breads and cookies. The oven can reach temperatures up to 222° C and will easily fit a 22 cm x 33 cm pan so you can carry out all of your baking needs. Fueled by propane, this oven will hold a temperature of up to 177° C for up to 7 hours or up to 222° C on high heat making it great for emergency preparedness.

Designed for ease of use and portability, the Eccotemp CSET-100 Portable Camping Stove & Oven features a lid that folds up to reveal two burners with up to 1.6 Kw of power each. The burners are easy to get going with convenient, matchless igniters. The stove's folding lid with side arms doubles as a wind screen to retain burner heat, and the nonstick, enamel cooking surface is easy to clean. The Camping Stove & Oven comes complete with an oven thermometer and two oven racks, and can be adapted for use with a bulk tank with a bulk tank hose adapter (sold separately).

Package Contents:

- ✓ 18,000 BTU/5.28 KW Camping Stove & Oven
- ✓ 2 Removable Oven Racks
- ✓ Separate Oven Thermometer
- ✓ Instruction Manual
